Subject: Additional Residential Soil Data posted

---

Dear Gary-

We received the complete dataset from the laboratory today for the residential soils. The following have been posted to the project portal today, in the folder "SJRWP Site – EPA TCEQ Trustees":

- The EDD for dioxin/furans for all residential soil samples
- The dioxin/furan analytical report for all residential soil samples
- A summary table of unvalidated conventional (TOC, grainsize, solids) and dioxin/furan data for all residential soil samples.

Please note that in the analytical report, samples called "RSRM" and "RSFW" are QA/QC samples, and not actual environmental data.

Thank you,

*Jennifer*
